IT'S NOT JUST THE BEST BREAD IN THE WORLD

Founded in 2007, Panetto manufactures healthy bakery and pastry products. A team of dynamic entrepreneurs transformed the neighbourhood shop concept into an industrial operation that markets its products internationally.

With a strong focus on artisanal bakery and pastry production, guided by experience, a passion for tradition and technological innovation, our products are carefully made to ensure full consumer satisfaction and compliance with the highest quality and food-safety standards.

Our varied range results from a rigorous selection of raw materials whose composition provides healthy nutritional characteristics, in line with new consumer habits that are increasingly valued. Since 2012, Panetto has been present in most major retail chains, where you can find our products.

We are not afraid to get our hands in the dough to create the best possible product.
