NOT JUST THE BEST BREAD IN THE WORLD

Panetto, founded in 2007, is a healthy bakery and pastry maker. A team of dynamic entrepreneurs has transformed the concept of proximity shopping into an industry for marketing their products internationally.

Striving for handcrafted bakery and pastry making, guided by experience, a taste for tradition and technological innovation, the products are carefully processed to ensure full consumer satisfaction and compliance with the highest quality and food safety standards.

The range's variety is the result of a rigorous selection of raw materials that, due to their composition, brings healthy nutritional characteristics in line with the new and increasingly valued consumption habits.

Since 2012 we are represented on most of the commercial surfaces where you can find **Panetto** products. We are not afraid to get down to earth to get the best product possible.
